the NEW children's adventure series

The Doggy Dog Dog Detective Agency: The Case of Green Ham

available October 2011

Adorable, scatter-brained Kody bounces through a life full of fantasies, until his nose tells him there is something rotten at the nursing Home, where as a certified Therapy dog, he brings joy to his human friends.

Based on true events, the high jinx adventures of Kody, his brother Oscar 'the Oracle', the Old Bones Club and the most unlikely avian army, enchants readers of all ages.

A classic detective comedy adventure, populated with well crafted, engaging characters: Kody, the unwitting, bumbling wacky hero; Oscar, the wise leader; the awesome members of the Old Bones Club; the scheming nursing Home Administrator; her fiendish feline, McEvil; and the deadly duo - Tall Hat and Leather Jacket.

A bucketful of laughs. Wildly funny scenes. A roller coaster ride of highs and lows, peppered with rhyming, tongue twisters. The ending will surprise and delight.
